RESPONSE TO RESTRICTION REQUIREMENT  
UNDER 35 U.S.C. § 121

Sir:

In response to the restriction requirement mailed June 3, 2004, Applicant elects Group 2 as indicated by the Examiner, with traverse. Applicant respectfully submits that the restriction requirement is improper, since the Examiner has failed to demonstrate that the claims of Group 1 and the claims of Group 2 are distinct. In this regard, the Examiner has stated that:

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage thereon in an envelope addressed to Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on \_\_\_\_\_

"Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be made to make other and materially different products or (2) that the product as claimed can be made by another and materially different process. (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process, for example, the assembly does not need to change a power routing configuration of a motherboard by providing an additional non-motherboard current path."

(Emphasis added).

Applicants however, respectfully disagree with the Examiner, and point out to the Examiner that since the power levelling element, as recited in claim 8 provides an additional non-motherboard current path, the Invention II is necessarily made by the process of Invention I. Thus, the Examiner has failed to show that the Inventions I and II are distinct.

For the above reasons, the Examiner is, respectfully requested to withdraw his restriction requirement. However, Applicant does elect the Invention II, with traverse, and reserves the right to partition from this restriction requirement.

Authorization is hereby given to charge our Deposit Account No. 02-2666 for any charges that may be due. Furthermore, if an extension is required, then Applicants hereby request such an extension.
